

1999 - 2026

Built for real projects.

From design to production, delivery,
and installation of multi-family
housing furniture

At-a-Glance Vendor Review

Five reasons to choose HAEJOO NC.

01 27 Years Continuous Project Experience Since 1999, we have built extensive experience across public and private apartment furniture projects.	02 9,290m² Company-Owned Production Base Our Gimpo production campus and dedicated processing equipment give us direct control over manufacturing conditions.
03 One Flow Integrated Project Delivery We connect drawing and specification review with production, delivery, installation coordination and final inspection.	04 KS · ISO Verifiable standards Product standards and quality, environment, and occupational health and safety management systems can be checked in publicly available materials.
05 209 Records Searchable Project Records Search project records from 2005 to 2026 by site name, contractor, year and furniture scope.	

HAEJOO NC
ALL IN ONE FURNITURE

The figures and names have been organized based on the current website and the company's 2026 materials. The actual supply range and schedule will be confirmed after reviewing drawings, quantities, and site conditions.

A manufacturing company that understands the site

Design, production and installation in one connected workflow.

Since its establishment in 1999, HAEJOO NC has been connecting blueprint review, production, delivery, installation, and finishing confirmation, focusing on kitchen cabinetry and storage furniture for apartment complexes.

Establishment	1999.04.01
---------------	------------

company-owned factory	9,290㎡
-----------------------	--------

Skilled Production Personnel	35 people
------------------------------	-----------

Headquarters & Factory	Daegot-myeon, Gimpo-si, Gyeonggi-do
------------------------	-------------------------------------

1999 - 2026

Production and quality standards built step by step.

1999**Establishment of HAEJOO NC**

Began furniture manufacturing operations in Gajwa-dong, Incheon

2008**Expansion and relocation of Gimpo production base**

Strengthening production base centered on Daegot-myeon company-owned factory

2014-16**Establishment of Quality and Construction Systems**

ISO 9001, specialized construction registration, KS G 5700 · 2020, MAIN-BIZ and group-standard certification

2017-18**R&D and public-sector quality recognition**

Dedicated R&D department, organizational excellence recognition, excellent joint procurement brand, and LH Customer Quality Award Encouragement Prize

2019-21**Expanding external trust**

Minister of SMEs and Startups Commendation, LH Quality Evaluation Encouragement Award, Presidential Commendation for Model Taxpayer

2022-23**Construction of the second factory · IBK Family**

Expansion of Production Base and Selection of Excellent Companies

2024-26**Continued On-site Delivery**

Accumulating collaborative achievements in public and private multi-family housing projects

From design review to on-site work for multi-family housing furniture

Manufacturing processes, aligned with site requirements.

01 / MANUFACTURING

Furniture Manufacturing

We produce kitchen · storage · general furniture in-house according to approved project drawings and specifications.

- Kitchen Cabinetry
- Built-in & General Cabinetry
- Entryway & General Storage

02 / PROJECT SUPPLY

Contract Project Supply

We coordinate supply scope around the quantities, unit types and schedules of apartment developments and public-sector projects.

- Public and private apartment developments
- Government offices, educational, and defense facilities
- Project-specific volume planning

03 / INSTALLATION

On-site installation

Check delivery, hoisting, and preceding work conditions and manage installation and finishing according to the contract scope.

- Delivery & Hoisting Coordination
- Installation · Finishing verification
- Follow-up within the scope of the contract

04 / REMODELING

Replacement · Remodeling

Check the dimensions of the existing space and the demolition/equipment conditions to review the scope of furniture replacement and remodeling.

- Verification of existing conditions
- Review of replacement scope
- Coordinate Site Schedules

SUPPLY SCOPE

The actual scope of manufacturing, delivery, and installation will be confirmed after reviewing project-specific drawings, contract conditions, site conditions, and production schedules.

One project, connected teams

Specialized roles, connected project information.

Message from the CEO

A commitment at one site becomes the standard for the next.

KIM HYUN KYUNG · CEO

Since 1999, HAEJOO NC has manufactured kitchen cabinetry, storage systems and general furniture for apartment developments and public-sector projects.

Our company-owned production base and quality management system keep every approved drawing consistent through manufacturing, delivery and on-site installation. We review demanding lead times, varied unit types and site-specific conditions early, then carry the agreed scope through with accountability.

We earn trust through verifiable facilities, certifications, project records and responsive site coordination.

HAEJOO NC CEO Kim Hyun-kyung

01	02	03
Accurate Review We begin by confirming drawings, specifications, quantities and schedule.	Connected production Sales, design, production and quality share one source of project information.	On-site responsibility We discuss installation and finishing conditions after delivery.

Kitchen system

Kitchen workflow and equipment coordinated in one specification.

KITCHEN FURNITURE · PROJECT VISUAL

Scope

**Sink · Upper and lower cabinets
· Refrigerator cabinet · Island**

We configure each item to match the unit type and contract scope.

Layout	Workflow, appliance and utility locations
Material	Specifications of doors, bodies, countertops, and hardware
Coordination	Review interference between walls, floors, tiles, and equipment.
Approval	Approved drawings and sample standards by unit type

Concept visuals illustrate the product range; final production specifications follow approved drawings and contract requirements.

Built-in & general furniture

Wall conditions and storage modules coordinated for each unit type.

BUILT-IN FURNITURE • PROJECT VISUAL

Scope

Built-in Closet • Dressing Room Cabinet • General Household Furniture

Modules are configured based on wall conditions and internal storage purposes.

Layout

Wall length, ceiling height, and interior modules

Material

Door type, handles, and interior finishes

Coordination

Check for interference between skirting boards, moldings, and door trims

Approval

Confirm internal storage and hardware configuration

The depth and internal composition of each item are reviewed together with the unit type, usage purpose, and on-site finishing conditions.

Entrance & living storage

Plan storage around utilities, including those out of sight.

STORAGE FURNITURE · PROJECT VISUAL

Scope

Entrance cabinets · pantry ·
half-wardrobe · daily storage

We organize each unit around its storage purpose and utility locations.

Layout	Storage purpose, cabinet depth and unit type
Material	Shelving, ventilation, doors, and accessory components
Coordination	Check distribution panels, equipment, and floor finishes.
Approval	Confirm internal arrangement and opening clearance

Entryway and everyday storage are coordinated with utility access, door clearances and finish lines.

Company-owned production base

Production building and support spaces operate as one integrated campus.

01 / PRODUCTION CAMPUS

02 / FACTORY A · Processing · Assembly

03 / FACTORY B · Production Base Expansion

Ownership	Scale	Location	Expansion
Company-Owned Production Base	9,290㎡	Daegot-myeon, Gimpo-si, Gyeonggi-do	Second factory completed in 2023

From drawing to dispatch

Verify every process before moving to the next step.
